

## Stainless Steel Cartridge Heater Resistance Heater

If you are looking for the manufacturer of cartridge heaters, please feel free to contact us-Shenglong Heaters, our cartridge heaters use the world's top material. Best quality, Meet or exceed the same quality in Europe and America, **Only 40%** of the price of similar products in Europe and America. To meet customer demand for high quality.

### What's different of Shenglong's cartridge heater?

1. The minimum diameter can be 1mm

#### 2. High quality material:

- Tube Material: Seamless SS304, SS321, SS316L, SS310S, Incoloy 400/600/800/840 etc;
- MGO Rod: Imported from Japan Tateho, USA OTC;
- MGO Powder: Imported from UK UCM, Japan Tateho;
- Resistance Heating Wire: Sweden Kanthal, Germany BGH, NiCr8020;
- High Temperature Wire: Fiberglass wire, Pure Nickel Core wire, Teflon wire, Silicone wire;
- Terminal Pin: Nickel-manganese alloy, pure nickel wire.

#### 3. OEM service support.

#### 4. Quality Assurance:

Under normal conditions consistent with the design range,

A grades cartridge heater warranty :**365days**

B grades cartridge heater warranty: **180days**

#### Shenglong Cartridge heater specification:

Voltage & Power	3.7V 4.5V 5V 12V 24V 48V 110V 220V 380V 420V 600V. Customized
Max. Working temperature	927degree Celsius
Pipe diameter	1-35mm. Can be customized
Sheath material	Stainless steel 304/316/321/310S/incoloy 600/800/825/840, copper, etc.
Features	long service life

## Suggest Application of Shenglong Cartridge heater

### Stainless Steel Cartridge Heater Applications

- Plastics and Packaging applications
- Medical Care

- Automotive Industry
- Test instruments
- Aircraft
- Liquid Immersion
- Hot Stamping

Extruding Machine

Glass Bending Machine

Injection Molding Machine

Packing Machine

## Shenglong cartridge heater process and workshop

### Producing Process

Automatic Wire

Automatic Blanking

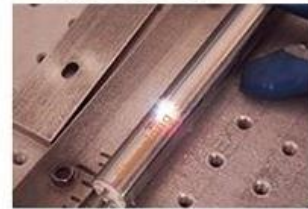

Automatic Coiling

Inspection Process

Tube Rolling Process

Laser Printing

Pipe Cutting Process

Vacuum Packing
